Emmanuel Seenooff, Philadelphia, Pa.  
George Sheriff, Covington, Ky.  
Donald E. Sherrill, Indianapolis, Ind.  
Herbert L. Smith, Rockford, Ill.  
Joseph J. Stanga, Pittsburgh, Pa.

## MRS. B. W. SMITH GAINS 25 LBS.

"I'll praise Tanlac as long as I live," she says; was in bed ten long months.

"I'll praise Tanlac as long as I live," she says; was in bed ten long months. Mrs. Smith, 45, began suffering from rheumatism and much trouble, loss of appetite and nervousness. Her head ached so at times it felt like it would jump from my shoulders. Then acute rheumatism got hold of me. My feet, knee joints and elbow would swell terribly and the pain was almost unbearable. Before I took Tanlac, I had not been up and about, unable to go down stairs for many long years, and was in bed for ten months perfectly helpless. I was under treatment every day for three months, but Tanlac did the rest. Now the hills got so big I dreaded to think of them, but I never got able to be out of bed but very little.

I suffered until I lost thirty-five pounds, but Tanlac gave me a new source of energy. Since I began taking Tanlac, pretty soon after I started on it, my appetite came back, and I could eat anything. My nerves got stronger, and I could get up and about again. After the second bottle I felt much stronger, and it wasn't long before I got about the house. And do you know, haven't a trace of any kind now and I'm as strong and cheerful as a baby. I am full of life and energy and feel fully able to go down stairs when I please, as well as walk around on my feet all day. In fact, I can do more now as I ever could in my life, if not more, and I just feel happy over what Tanlac has done for me. That I want everybody to know about Tanlac, I have told lots of people about it already, and know many who are taking it on account of what it has done for me."

Tanlac is sold by Kelly & Pollard, Inc., and People's Drug store—Adv.

## CHILD'S TONGUE BECOMES COATED IF CONSTIPATED

When cross, feverish and sick give "California Syrup of Figs."

Children love this fruit laxative, and nothing else removes the tender, scratchy tongue and cleanses the tender stomach, and removes the constipation.

A child will simply not stop playing when become tightly clogged with waste. Give your children a spoonful of this delicious syrup three times a day, or diarrhoea, and in a few hours all the constipated stool will pass out of the system, and you have a well, playful child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach. Liver and bowels are helped.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grownups plainly printed on the box. No counterfeits sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt—Adv.

## Rupture Kills 7,000 Annually

Seven thousand persons each year are laid low by the most terrible disease known as "Rupture." Who knows how many unfortunate ones had neglected themselves or had been merely taking care of the signs, fearing the worst, and thus failing to pay attention to the cause. What are you doing? Are you neglecting yourself? Are you going to call it at best, the trust is only a makeshift—a false prop, a collapsing wall cannot be expected to support them, and they need constant support. The binding pressure rewards blood circulation, thus enabling the walls of the abdomen of those which they need most—restoration.

But science has found a way, and every true sufferer of the kind is invited in our PLAPAO PAD to make his home in their own home. The PLAPAO method is unquestionably the most scientific, logical and safe method for the cure of the rupture the world has ever known.

The PLAPAO PAD when adhering closely to the body causes positive air or static pressure, which is equivalent to six inches. But as velocity varies to apply the pressure, the binding pressure rewards blood circulation, thus enabling the walls of the abdomen of those which they need most—restoration.

Learn how to close the hernial opening in the PLAPAO PAD, and you will be enabled to use the PLAPAO PAD to cure the hernia in your home. The PLAPAO method is the most scientific, logical and safe method for the cure of the rupture the world has ever known.
